Kim:

Take those questions. Add Peter's comments, then please have someone start compiling answers to those questions. I am too busy with Morningstar and prep for tonight's community meeting.

Mark

Thanx mark!

1 comment relative to your first 2 questions - ask them specifically if they have any threshold values for any water quality parameters and how they use the thresholds. They may have more than one where, for instance their action is to sample or measure more frequently and then escalate from there to closing the intakes.

You may have already planned to ask; just thought I'd mention it.

You captured everything else.

Thanx again! Peter

Subject: GKM - Long Term Questions for SW Systems

Please let me know if any changes are needed based on the call we had at noon MDT today.

Thanks,

Mark McCasland
